Day 1: Namutoni Campsite, Etosha National Park (Sun, 9 July)

Etosha National Park

The Etosha National Park is Namibia's premiere game viewing experience, situated in the northwest of Namibia and is an area well known for its wildlife. Vegetation ranges from dense bush to open plains attracting a diversity of wildlife. In the heart of the Park is The Etosha Pan - a shallow depression that covers an area of 5000sq kilometres. Dry and shimmering for most of the year, the pans fill up with water after good rains to a depth which is seldom deeper than 1m. In the dry season wildlife is attracted to perennial springs and waterholes that makes for excellent game viewing. Within the park are three large public rest camps catering for the more budget orientated traveller. There are several smaller establishments on the outskirts of the park on private land offering a more intimate and comprehensive experience. All of these establishments offer excellent value for money.

Overnight: Namutoni Campsite

Built into an old German Fort Namutoni Campsite has a unique atmosphere. Within the fort you will find ample facilities. From the walls of the fort you can enjoy an elevated view of the King Nehale Waterhole allowing for great game viewing without leaving the camp. The walls of the fort are also an excellent spot for sundowners. There is hardly a better way to end a day in the bush and Namibia than to marvel at the colours of the setting sun.

The Camp is situated in the eastern part of Etosha National Park and is accessible via the Von Lindequist Gate. Its close proximity to Fisher's Pan makes Namutoni a hotspot for birders. Two restaurants, a craft shop, a pool and a viewing deck overlooking King Nehale Waterhole make the fort a great place to relax at lunchtime or after evening game drives. The African Fusion restaurant will introduce you to local flavours, while The Steakhouse offers popular western dishes. A superette, curio shop and petrol station allow you to stock up on everything that is necessary and nice. The camping area has generously spaced sites with plug point and communal ablution facilities on either side of the campsite.

Day 2: Okaukuejo Campsite, Etosha National Park (Mon, 10 July)

Overnight: Okaukuejo Campsite

Okaukuejo is located 17 km from the southern entrance of the park, Anderson Gate. Okaukuejo is the oldest tourist camp in Etosha and it also functions as the administrative centre of the park. Okaukuejo is also home to the Etosha Ecological Institute. It is situated at the western end of the Etosha Pan. Facilities include a restaurant, bar, shop, swimming pool, kiosk and camp sites.

The main attraction of this camp is that it overlooks a permanent waterhole which is floodlit at night. Here a wide diversity of wildlife congregate and interact from lion to rhino to elephant and antelope. The spectacle starts at dawn, with animals coming in large numbers to quench their thirst. The activity continues throughout the day until late at night. In the early evenings, it is not uncommon to have black rhino, elephant and lion all drinking at the same time.
